

Business Luncheon with Dr. David R. Young

Founder & President, Oxford Analytica

*Organized by: The British-Swiss Chamber of Commerce
In association with: American International Club of Geneva &
Swiss-American Chamber of Commerce*

Living in a Fragmenting World: Will governments and corporations merely cope with, or shape the future of, a fragmenting world?

The pace of change, whether in business, technology, politics, finance or even in social issues, seems almost bewildering. How to make sense of it all? Our Guest of Honour can help.

Dr. David R. Young has been analysing and assessing risk and difficult problems since he served as Special Assistant to Henry Kissinger at the National Security Council in the Nixon Administration 48 years ago! His insights may be second to none. His antennae are far-reaching and he says he “had a front row seat to the Greatest Show on Earth”. In 1975, he founded Oxford Analytica (www.oxan.com), one of the world’s leading geopolitical risk consulting firms providing strategic analysis of world events. Its main activities are in the areas of geopolitics and macroeconomics. Its core business comprises advisory work and a daily analysis service known as The Oxford Analytica Daily Brief.

Dr Young has also served as Lecturer in Politics at Queen's College, Oxford, since 1975. He is a Senior Associate Member of St Antony's College, and a Dominus Fellow of St Catherine's College. He has been an Associate Member of the Royal Institute of International Affairs and the International Institute of Strategic Studies since 1980. He lives in both Washington, D.C., and Oxford.

Register now to meet Dr. David Young and hear his reflections on the future for today’s fragmenting world.
