Eugen Elmiger

Sascha P. Quanz

Michael Schaepman

Marc Steckling

Space – Humanity’s dream frontier! But space is also an essential new frontier for science and business. In the last 10 years and in the years to come, new research fields and especially large new markets will develop.

Switzerland may be a small country, but it is at the forefront in space development – in satellite components, sensors, electro engines, intelligent software and much more.

Together with eminent specialists, we would like to explore the opportunities and challenges for Switzerland, for Swiss universities and laboratories, and for Swiss companies.

May the Force be with us!

Wednesday, December 6, 2023 at Zunfthaus zur Meisen, Münsterhof 20, 8001 Zurich

Registration 5:00 p.m. / Presentation 5:30 p.m. - 7:00 p.m. / Followed by cocktail riche
